GENESIS / STELLAR UNLOCKED

DEAL PASSPORT

Private qualification. Mutual consent. Real Testnet.

Hack Meridian / 2026 LISBON | GUAVA® Stellar

PITCH STEP 01 / 04

THE SOLUTION

Qualified introductions with privacy and control built in.

- Buyer Passport: prove eligibility without revealing the exact balance.
- Property Passport: issuer-attested authority to market this property.
- Deal Passport: both qualifications and both consents unlock the dossier.

€900k qualifies against a €750k threshold.
Underfunding and expiry fail. Both parties must consent.

Live Testnet MVP / Synthetic credentials / No real bank or registry integration

PITCH STEP 02 / 04

PMF

Brokers need trust before sharing private deal information

- Customer: licensed brokers and off-market platforms in Portugal.
- Pain: document chasing, repeated funds checks and premature disclosure.
- Pricing hypothesis: €89/month or per-verification fees.

**Pilot: measure document requests and qualification time.
Test conversion and willingness to pay. PMF unvalidated.**

MARKET & NOVELTY

Existing services validate parts of the same private-deal workflow

Product	Existing offer	Our implemented MVP
RealOpen	Crypto funds letter Reveals verified balance	Issuer-bound threshold proof Hides the exact balance
IntegraLayer	Attested property data Onchain Asset Passport	Deal-specific authority claim From an authorized issuer
MERKAO	Verified counterparties NDAs and private data rooms	Stellar-enforced qualification And mutual disclosure consent

Market signal: MERKAO reports 250+ verified professionals.
Our focus: a private buyer proof and one enforceable mutual policy.

Vendor claims are not audited. Deal Passport demand remains unvalidated.

VERIFIED WORKFLOW

Buyer proof, seller authority and consent are live on Testnet

- Browser generates a genuine Groth16 eligibility proof.
- Stellar verifies the proof and the property issuer's authority.
- Both parties consent; the API rechecks current chain state.
- Underfunding, expiry, forgery, replay and revoked access fail.

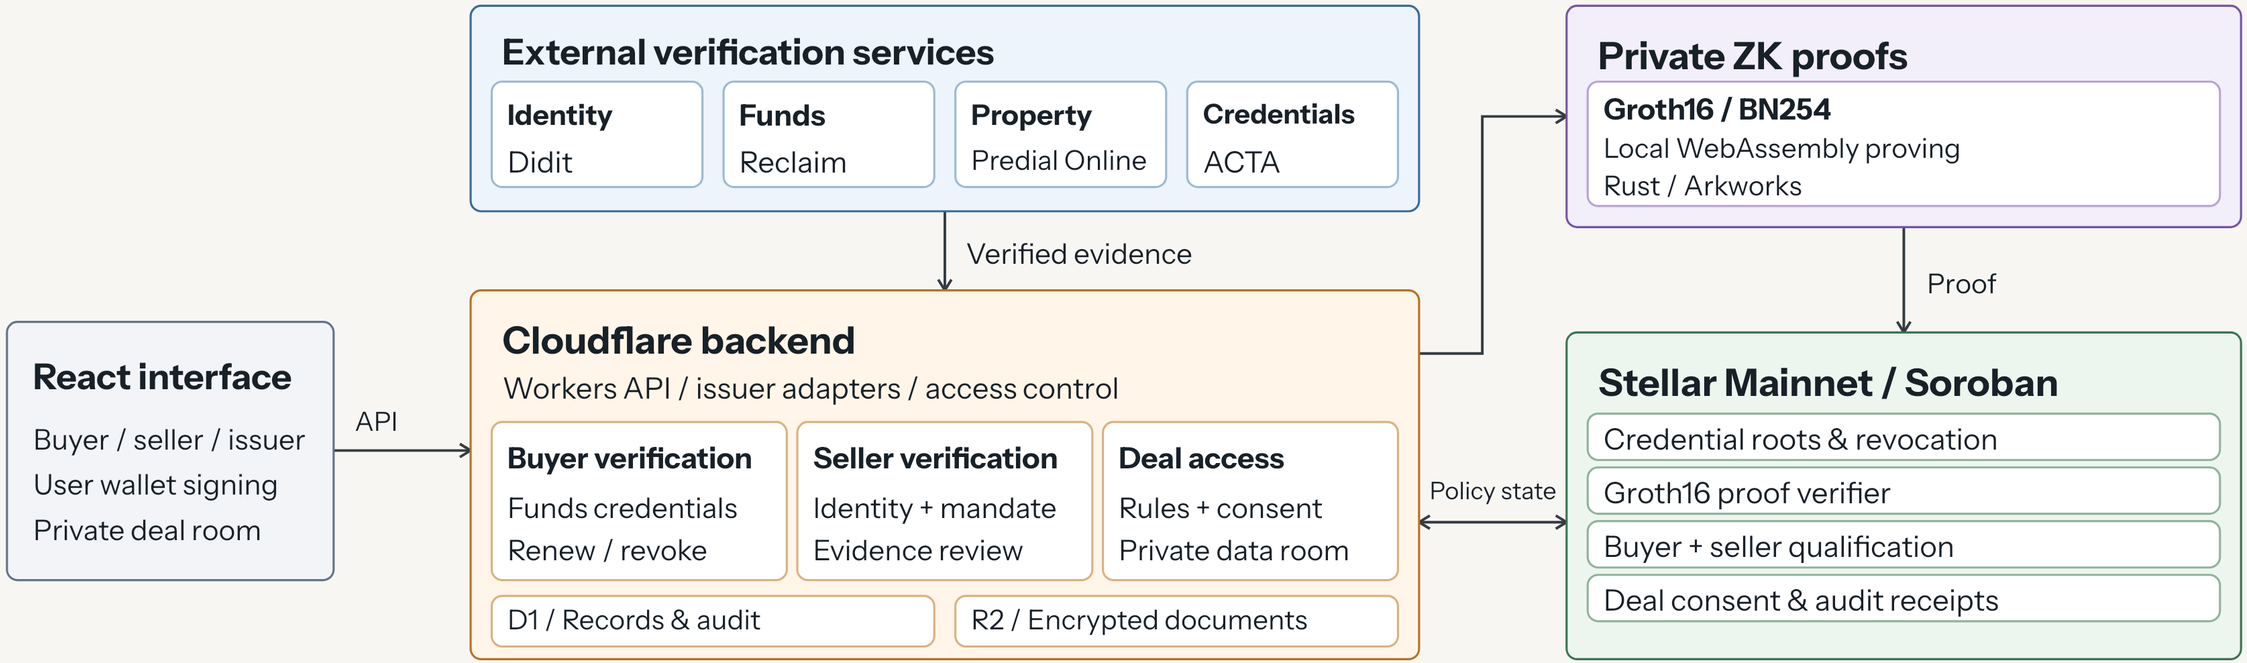

1.6–2.6s browser proof observed on this demo device.
Live operation history and public Testnet receipts.

Live Testnet MVP / Synthetic credentials / Unaudited demo setup

PITCH STEP 03 / 04

AI DEAL CONCIERGE

“Help me qualify for this private deal.”

You approve every disclosure. Stellar enforces the policy.

Planned extension. Private evidence stays in the secure verification flow.
